Service Provider Approval & Monitoring Procedure

Purpose

The purpose of this procedure is to define how Wildwood Ingredients, LLC approves and monitors service providers whose activities may influence product safety, legality, or quality. This procedure uses a tiered approach based on the potential impact of the service provided.

Scope

This procedure applies to the following service providers and any additional service providers added to the Approved Supplier Program:

- Pest Control Provider
- Off-Site Laboratory Testing Provider
- Ecolab – Sanitation/Chemical Supplier
- Waste Management Provider

Tier Classification

Service providers are assigned a tier to determine the level of approval and monitoring required.

Tier Definitions

- **Tier 1** – Highest level of oversight. Services with direct or significant potential affect food safety, legality, or product integrity.
- **Tier 2** – Standard level of oversight. Services with indirect or moderate potential impact on food safety or facility hygiene.
- **Tier 3** – Minimal oversight required. Services with minimal or no interaction with product, materials, or equipment.

Current Tier Assignments

Service Provider	Tier	Rationale
Pest Control	**Tier 2**	Routine oversight is appropriate.
Off-Site Laboratory Testing	**Tier 2**	Results impact safety decisions; standard controls apply.
Ecolab – Chemical Supplier	**Tier 2**	Supplies chemicals used in the facility.
Waste Management	**Tier 3**	Provider does not enter the facility or interact with food or equipment.

Approval Requirements

Tier 1 Providers

Required documentation:

- Business license
- Proof of insurance (where applicable)
- Detailed service contract or scope of work
- Evidence of employee or technician qualifications
- Relevant industry or regulatory certifications
- SDS, technical information, or validation documents for materials used, as applicable

Tier 2 Providers (Pest Control, Laboratory Testing, Ecolab)

Required documentation:

- Basic service scope (service agreement or brief service description)
- Evidence of competency as applicable:
    - Pest Control: applicator or technician license
    - Laboratory: accreditation certificate
    - Ecolab: SDS for chemicals supplied to Wildwood

No further documentation is required unless issues arise.

Tier 3 Providers (Waste Management)

Required documentation:

- Active service contract or invoice confirming active service
- Confirmation that the provider does not enter the facility

No additional documents required.

Monitoring Requirements

Tier 1 Providers

Monitoring requirements:

- Review service reports following each service event
- Annual review of performance and service effectiveness
- Verification of updated training, certifications, or qualifications
- Review of any deviations or service-related issues
- Annual confirmation that all required documentation remains current

Tier 2 Providers

Pest Control

- Monthly review of service report
- Annual confirmation of applicator license or service contract

Off-Site Laboratory

- Review test results for completeness
- Annual confirmation of accreditation

Ecolab – Chemical Supplier

- Review SDS when a product is added or updated
- Annual review of chemical list for accuracy

Tier 3 Providers (Waste Management)

- Confirm scheduled pickups occur
- Annual contract review
- No additional monitoring required unless a service problem occurs

Verification of Service

Tier 1 Providers

- Confirm provider appears on the Approved Supplier List
- Verify all service records, documentation, and qualifications
- Document any issues and notify the Director of Operations
- File all documentation in the Service Provider folder

Tier 2 Providers

- Confirm provider appears on the Approved Supplier List
- Review applicable documentation (pest logs, SDS updates, lab results)
- Document discrepancies and notify the Director of Operations
- File all records in the appropriate service provider folder

Tier 3 Providers

- Confirm scheduled pickup was completed
- File contract or invoice
- No additional verification required

Records

- Service contracts
- SDS (where required)
- Pest control service reports
- Laboratory test results
- Waste pickup confirmations (if retained)
- Annual review documentation

All records are maintained in the Service Provider documentation folder.
