Supplier Approval & Monitoring Policy

Purpose
The purpose of this policy is to define Wildwood Ingredients, LLC's commitment to ensuring that all suppliers of ingredients, packaging materials, and services are evaluated, approved, and monitored to maintain the safety, legality, authenticity, and quality of all products we manufacture and distribute.

This policy applies to all ingredient and packaging suppliers, as well as any service providers whose activities may influence product quality or safety. Supplier approval and monitoring are essential elements of Wildwood's food safety management system and support compliance with FSMA and BRCGS Global Standard for Food Safety requirements.

Policy Statement
Wildwood Ingredients, LLC recognizes that the integrity of its finished products depends on the safety and reliability of materials and services provided by qualified suppliers.

To ensure supplier reliability and compliance:

- All suppliers shall be evaluated and approved prior to use.
- Supplier approval shall be based on a documented risk assessment, review of objective evidence (e.g., third-party certification, completed questionnaires, regulatory registration, and documentation), and ongoing performance monitoring.
- A controlled Approved Supplier List (Doc No. 3.5.1.1 – 03) will be maintained by the Director of Operations and updated as suppliers are approved, suspended, or removed.
- Purchases shall be made only from approved suppliers unless a controlled exception is granted by the Director of Operations in accordance with the Supplier Approval & Monitoring Procedure (Doc No. 3.5.1.1 – 02).
- Supplier performance will be reviewed periodically, and higher-risk suppliers may be subject to increased monitoring or corrective actions.

  Wildwood Ingredients is committed to a transparent, risk-based approach that protects product integrity, meets customer expectations, and supports continuous improvement.

Responsibilities

Role	Responsibility
Director of Operations	Conducts supplier risk assessments, approves suppliers, authorizes controlled
